

Mockup Review

4/15/21

I think this is a great start for the design of the site. The site's concept and content are very clear. The home page conveys the athletic and political significance of the match.

I like the simplicity of the nav bar. For the buttons, you can do some cool animations with the icons or adjust the opacity when you hover and click on them. The font style is nice and legible, but I think you could consider making all of the font size slightly larger. The picture you selected is great because it shows the emotion of the competition. The page has a little too much whitespace, so consider adding some background color or images on the sides and bottom. You could experiment with adding flags or banners that represent the clubs on the sides of the page.

Overall, great job!
