

## Site Review Notes

Overall, the website looks very good! You did a really good job of making the pages mobile friendly, but the navigation bar does not quite work on mobile because some of the tabs are cut off. I still think the website could use a little more color, but overall it's very clean and visually appealing. Under the players tab, I think the goal keepers table is missing a little information on total column is counting (I assume it's clean sheets, but i am not sure). On this history tab, I think you could make the image a little smaller if you wanted to.

Again, the website looks really good!
